### ABOUT ME

I am a Mobile QA Engineer at smartpatient with experience in software testing, tests managing and tests automation during the day. Hardcore drummer of MORON and CF98 bands at night.

During my almost 12 years experience I was involved in projects from different industries: financial, accounting, healthcare, travel, e-commerce.

I have experience in performing software tests during the software life cycle – analyze, development, implementation, maintenance. Fully Agile.

For over 2 years I worked as a Test Leader for the biggest polish healthcare company - Grupa LUX-MED. From 2016 to 2018 I was leading a 8-person QA Team for Deloitte in Warsaw.

**I am a Certified Selenium Automation Tester (testerzy.pl).**
